#### 6. Approval & Authorization

Dr. Muhammad Mubeen  
Director - ORIC

Prof. Dr. Fahim Qazi  
Director, KASBIT

## **Call for Paper –**

### **10th KASBIT International Conference on Multidisciplinary Research (KICMR) 2026**

**Theme: AI, Geopolitics, and Sustainable Transformation in a Fragmented Global Economy**

#### **Conference Objective**

The objective of the 10th KASBIT International Conference on Multidisciplinary Research (KICMR) 2026 is to provide a dynamic platform for scholars, researchers, policymakers, and industry professionals to engage in critical dialogue at the intersection of Artificial Intelligence, global business transformation, and evolving geopolitical realities. In an increasingly fragmented global landscape characterized by economic decoupling, technological competition, supply chain restructuring, and regulatory divergence, the role of AI is being redefined as both an enabler of innovation and a strategic instrument of national and organizational competitiveness.

The conference aims to foster a multidisciplinary perspective on how AI-driven transformations are reshaping business ecosystems, governance frameworks, and sustainable development pathways amid rising uncertainty. It encourages the exchange of cutting-edge research, practical insights, and policy-oriented discussions that address issues such as digital sovereignty, ethical AI, resilience in disrupted markets, and inclusive growth. By promoting collaboration across disciplines and sectors, the conference seeks to generate actionable knowledge, inform strategic decision-making, and contribute to building adaptive, resilient, and sustainable systems in a rapidly changing global order.

**Proposed Date: June 29, 2026 & June 30, 2026**
